

ASSIGNMENT 5

Double Exponential Smoothing

Mahima V PES1201700665

Amrita hegde PES1201700970

Chaitra H P PES1201701370

Problem Statement:

Apply double exponential smoothing on a dataset to forecast the values. Plot the graph of forecasted vs actual values to check accuracy.

Best MSE = 125.81620704283071
Optimal alpha = 0.9
Optimal gamma = 0.2

P_t = 641.6334222987338
b_t = 30.033728841040205
