# ASSIGNMENT 5
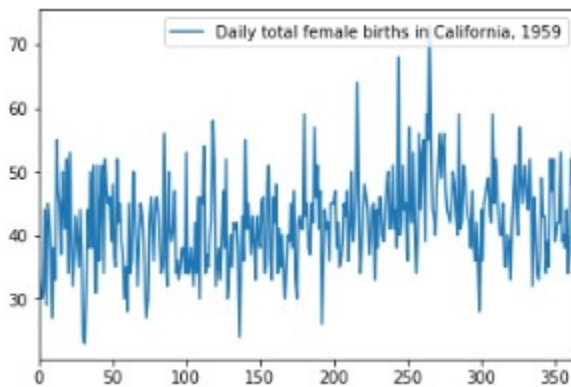

# Weighted Moving Averages

Mahima V          PES1201700665

Amrita hegde      PES1201700970

Chaitra H P       PES1201701370

## Problem Statement:

Use Weighted Moving Average to forecast values in a dataset that has trend component and plot the results to compare with actual values.

```
Best MSE = 47.17514578536712
Optimal n = 47
```

```
MA = 43.54609929078014
```
